COMMITTEE UPDATES

Legislative:  Legislative Chair Rick Edwards described MEDA’s involvement in the 2011 session as “extensive.” The MEDA Legislative Committee met each Wednesday morning at 7:00am and responded to threats to key economic development tools and funding as necessary. Rick reported the session is ending with not all that MEDA had hoped for, but better than what could have been. Rick requested feedback as to whether MEDA should respond to legislative outcomes in the media. Rick also encouraged MEDA to be very proactive during the pending gubernatorial campaign and to begin preparing now for the 2013 session. Rick Edwards and Terry Myhre were thanked by the board for their time and effort throughout the session.

Scholarship:  Chair Anne Boothe reported on scholarships awarded as follows: Mike Coryell, $800; Karen Smith, $400; James Rexhouse, $400; Allyson Reddig, $800; Tracy McIntyre, $800. MDOC, USDA/RD and MEDA are partnering to bring NDC training to Montana the next two years. As total cost for all four courses will total $140,000, donations are needed to bring down registration costs. MEDA will be writing an RBOG grant requesting at least $10,000. Terry Myhre moved to place half of MEDA scholarship funds toward NDC training and the remaining half left available for non-NDC scholarships. Rick Edwards seconded the motion; all voted in favor.

**LOOKING WITHIN**
President Jim Davison raised the question as to whether MEDA’s leadership is meeting the needs of its members. Discussion highlights included:
o Survey the membership and include conference evaluation questions as well as questions regarding MEDA as a whole. Gloria will provide a draft to the board before sending to the membership.
o Invite a board member from your organization into the conversation; bring a new perspective to the table.
o How to share what is going on within our organizations and share with the membership beyond two conferences per year.
o MEDA needs to be more proactive on the Federal level than in the past.
o CRDC’s and possibly regional economic development groups are forming a Working Group to become more efficient and share information. A very productive meeting was held Wednesday, April 27th.
o Hold a board retreat to review survey responses from the membership and become more cohesive as MEDA moves forward.

**Action Item:** Gloria will draft a survey for the membership and share with the board. Date and location will be identified for a summer board retreat. In addition to reviewing survey responses, additional agenda items will be set.
